

Ongoing / Continuing Work

1. Board of Governors

BOG has not met in open session since the last UMSU Board of Directors Meeting.

2. Working Groups

Sustainability Working Group met on Tuesday night (after this report was written) and Accessible Education Working Group will meet next week! The SWG will be submitting recommendations to the University's draft of its 2019-2023 sustainability plan.

3. Indigenous Representation

At the last Student Experience Committee meeting, an additional Indigenous student representative was added in the interim, and a commitment was made to address the lack of Indigenous representation on this body going forward, and to carry forward this issues to other UofM governing bodies. I hope to meet with UMISA members and any interested Indigenous student on campus to hear their perspective on this issue and others, such as Indigenous representation on UCRU as was discussed at the last meeting.
