

### **New Updates**

#### Community Rep Vacancy

- Earlier last week, I sat down with Mathew and Sophie to come up with changes to the governing documents that can reflect what would happen if we do not have a community representative in the position.
- This is to ensure a community is still served even without a representative.

#### Transitioning the next Vice President Student Life

- I am currently having weekly meetings with Christine in order to transition her into her role.
- I know the position will be in good hands and I cannot wait to work with her.
- During transitioning, I am also letting her know if the different suggestions students have brought up throughout the year to ensure any necessary changes and improvements are done.
