<b>UMSU Statement</b>	<b>Category</b>
-----------------------	-----------------

**Motion**

WHEREAS, on August 19th, 2021, the University of Manitoba has decided to require all students to be fully vaccinated against COVID-19.

WHEREAS 19% of the student population have not uploaded their vaccination proof by the 14th of November 2021 deadline.

WHEREAS students who did not comply have been identified and deregistered from both in-person and online classes without any accommodations, violating section 2.5 b of the Respectful Work and Learning Environment policy.

BE IT RESOLVED UMSU will publicly object to the university's actions of not accommodating students who did not upload proof of vaccination, and acknowledge the harm done to a significant part of the student body, by releasing the following statement:

"UMSU objects to a decision made by the u of m back in 2021 where students who have not declared their vaccine status have been deregistered from both in-person and online winter term classes, without having been provided with any reasonable accommodations.

UMSU recognizes that this negatively impacted many students and is committed to advocating for the rights of all its members going forward."
